

TABLE III-3: Air Basin Attainment/Nonattainment Designations

POLLUTANT	NATIONAL	STATE
Mountain Counties Air Basin		
Ozone ^a	Attainment ^c	Nonattainment ^c
Carbon Monoxide	Unclassified/Attainment	Unclassified ^d
Nitrogen Dioxide	Unclassified/Attainment	Attainment
Sulfur Dioxide	Unclassified	Attainment
Particulate Matter (PM-10) ^b	Unclassified	Nonattainment ^d
Lead	Not classified	Attainment
San Joaquin Valley Air Basin		
Ozone ^a	Nonattainment	Nonattainment
Carbon Monoxide	Unclassified/Attainment	Unclassified ^c
Nitrogen Dioxide	Unclassified/Attainment	Attainment
Sulfur Dioxide	Unclassified ^c	Attainment
Particulate Matter (PM-10) ^b	Nonattainment	Nonattainment
Lead	Not classified	Attainment

^a Current designations for the national ozone standard apply to the 1-hour-average standard. U.S. EPA has not yet designated areas for the recently established national 8-hour-average ozone standard, but is likely to designate Mariposa and Madera Counties as nonattainment for the 8-hour national ozone standard based on existing monitoring data (California Environmental Protection Agency 1999a).

^b Since monitoring for PM-2.5 only began in 1998, air basins will not be classified with respect to the new national PM-2.5 standard until 2000 or later.

^c County-specific designation. Unless otherwise noted, designations apply to the entire applicable air basin.

^d Designation applies to the portion of Mariposa County that lies within Yosemite National Park.
